

Application No. 10/825,576  
Amendment Dated July 16, 2004  
Reply to Office Action of

**REMARKS**

The amendment to the specification corrects a typographical error in the identification of the provisional application from which this non-provisional application claims benefit. It is obvious that a typographical error is involved since a claim is made to benefit of a "provisional" application; the Serial No. of a provisional application always begins with "60/" and here the prefix "06/" was used, which is not a proper prefix and clearly consists of transposed numerals; and the Serial No. "463,771" properly identifies an actual provisional application containing the same disclosure as and filed in the name of the same inventors as the present non-provisional application.

Accordingly, correction of the claim to priority is requested.

Respectfully submitted,

  
Robert A. Lloyd, Reg. No. 25,694
